Production area 33,000 m²

▶ **Location Beverungen:** Wood- working
Production area 21,000 m²

▶ **Location Korbach:** Sheet metal processing
Production area 27,000 m²

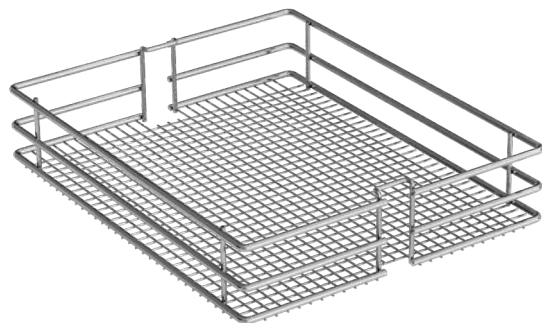

“We want to create high-quality system solutions for living spaces. For everyone.”

This is the idea that Hermann Vauth and Heinrich Sagel created in 1962. And that VS still hold on to today. Every day. To us space is in the eye of the beholder. VS see solutions where others look away. Never resting on their laurels. VS are always thinking one step ahead and looking for new challenges in order to recognize and redefine the living spaces of tomorrow and to facilitate and beautify everyday life.

 and Hermann Vauth (Right) ▶

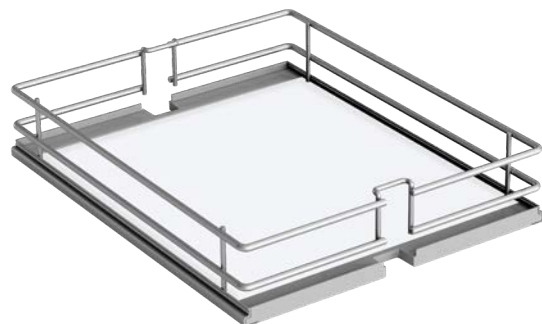

Basket Styles

GOOD

CLASSIC - The classic range is a great base level range of kitchen storage. The soft silver wire baskets are of the highest quality and provide great stability

BETTER

PREMEA - This timeless basket design, combines an elegant chrome plate surround with white solid base. It denotes quality and ultimate stability

BEST

PLANERO - Created for those with an eye for design, the on-trend lava grey finish is your chance to make an impact. For contrasting a lighter palette kitchen or to blend in with the trending darker style kitchen, there is endless styling options with Planero. The basket design combines a removable solid base and folded steel sides to keep items contained and to make cleaning easy
