## Baldacci, “The best keep secret of the Australian retail Caravan industry”

Welcome to the 2022 Baldacci Retail Guide of RV & Caravan Handles & Accessories.

The PullOpen® innovation created by Baldacci has revolutionised the interiors of caravans and improved the experience for many caravaners worldwide.

Baldacci is distributed exclusively by Dorset Australia and is used by a wide variety of Caravan & Motorhome manufacturers across Australia both large, small, high end & cost conscious.

For more inspiration on Caravan Interiors find Baldacci on Instagram or on our website.

**baldacci**  
made in italy

**World leader in high quality production of handles and accessories for recreational vehicles.**

More than 50 years of experience in the advanced and innovative hardware industry have enabled Baldacci to develop a top-quality range of products, created to answer the practical needs of RV & caravan owners. The result is the innovative PullOpen® System: a completely new concept of handles that has started a new era in the RV market worldwide. Conceptualised, created & manufactured in Italy.

## italian innovation

**The PullOpen® System is a tried & tested concept, the ability to unlatch caravan cupboards & drawers in the one fluid & natural motion of opening the door**

Through Baldacci's ability to innovate and their focus on design & functionality, they have become a renowned brand, synonymous with the RV industry throughout Europe & the USA and is one of the best kept secrets in the Australian RV Retail Market.

# are handles really that important?

It might seem a small detail in a van, however it's an important one. It's critical to select quality & reliability.

Handles & latches are used multiple times per day & thousands of times throughout the lifetime of a van or motorhome and in addition to this they take a lot of pressure holding doors & drawers locked closed as they are transported across the country. Selecting inferior handles or low quality drawer & door locking systems typically results in broken handles, doors that no longer open or worst still doors that open whilst travelling.

# select your caravan handles

Consistent drilling patterns throughout Baldacci range gives you the flexibility to select your handles for your dream caravan.

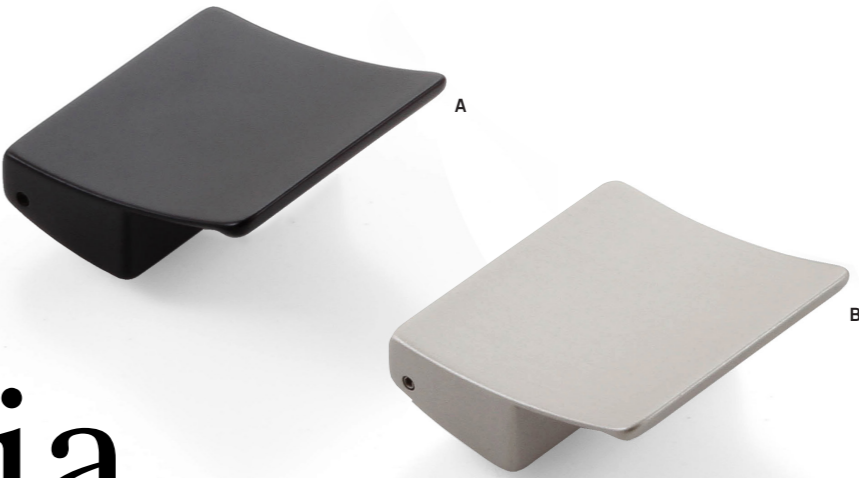

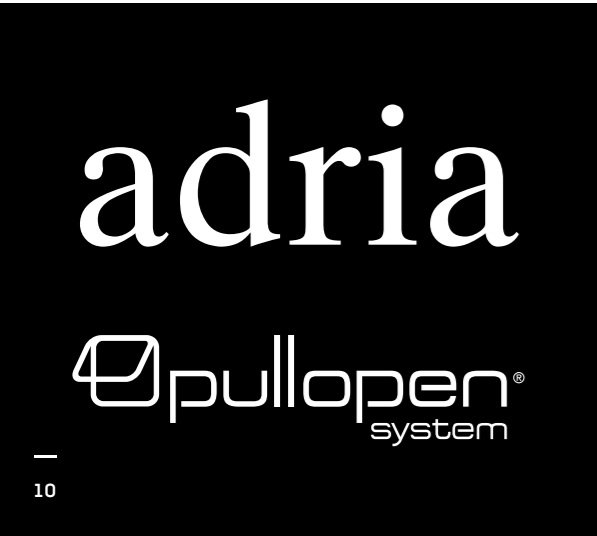

Caravan manufacturers will have a set drilling pattern, colour-coded symbols listed on the edge of the page throughout the brochure will assist you with options. Check with your caravan manufacturer which drilling pattern they use as standard.
